

## DISCUSSION QUESTIONS

### Meagan's Secret

1-Brittany is very focused on what she wants at the beginning of the story. What is she overlooking? How does reading The Diary of Anne Frank help her see other things around her? Has there ever been a time when you realized that a problem was happening with your friend and you didn't know what was going on?

2-What is Meagan's secret? Why is she so quiet about it? Are there people you know who might be in the same position as Meagan? What can you do to help them feel more at ease about their situation?

3-Brittany's relationship with Spencer in book 3 is different than in the first two books. How is it different? What caused the change? Have you ever had a person who you didn't like, but after getting to know them better your feelings changed?

4-Brittany goes from not wanting to read about Anne Frank's life to not wanting to put the book down. Have you ever had a similar experience? What does Brittany learn about Anne that interests her? Have you read about other people's lives, and once you found out a couple of things you wanted to know more?
